Concept Note

Women, children, and youth – 75% of the world's population – are the largest constituency with little, or no say in decision-making processes and in shaping the economic, social, and political environment we live in. It is imperative that our thoughts and visions, skills and lived experiences, and our deep aspiration for a more just and peaceful world are used to catalyze a system-wide transformation for sustainable development, equality, and peace with representation of 75% Actors 4 Good. We are expecting from world leaders to change course so that our children and grandchildren will not inherit the unstable and fragile world we live in today. Women who give birth to all humanity deserve a seat at the decision-making Table.

Vision: Organizing for a more equitable world community by including 75% of the world's population (6 billion) in co-designing, together with men, the space in which we can live without fear and pain.

Mission: Breaking the notion of exclusion and discrimination, igniting a post-pandemic culture through a movement of 75% A4GI claiming a seat at the Table. The 75% campaign will seek consultation, collaboration and cooperation with women's and children's rights organizations to help impact our vision and co-create a world where right human relations and compassion become the norm.

Objectives: Building a global 75% A4GI coalition for the achievement of the UN Sustainable Development Goals Agenda, showcasing "Actors 4 Good" organizations, promoting the work of registered coalition members, claiming a seat at the Table. WWSF plans to convene an annual Geneva 75% Forum to impact system change and empower the needed women's leadership in realizing our common vision and mission.
